SUMMARY

Passionate and detail-oriented Full-Stack Software Engineer with 1 years of professional experience — 1 year specializing in front-end development for both web and mobile platforms, and 1 year in back-end development. With a strong background in UI/UX design (2 years as a designer) and 2 years in marketing, I bring a user-centered mindset and a creative approach to product development. My work focuses on building visually appealing, functional, and engaging digital experiences that not only meet technical standards but also deliver outstanding user satisfaction.

TECHNICAL SKILLS

Programing Languages : JavaScript & TypeScript, Dart

Frameworks/ Platforms :

- ReactJs, NextJs, NodeJs, NestJs, ExpressJs, Flutter

Database Management Systems : My SQL, MongoDB

Orther :

- Proficient in using tools and technologies such as Postman for API testing
- Experience in setting up CI/CD pipelines, using docker, and implementing DevOps
- Git for version control, and setting up CI/CD pipelines to automate development workflows.

PROFESSIONAL EXPERIENCE

DESIGNER & MARKETING

Sep 2022 - Oct 2023

Bang Onsen Spa & Resort

- UX/UI Designer & Marketing

IT INTERN

Sep 2024 - Oct 2025

CyberSoft Academy -Đào tạo Chuyên Gia Lập Trình

- Gained hands-on experience with modern web development frameworks like Next.js. Enhanced backend development skills using NestJS and worked with relational databases. Worked directly with servers, contributing to backend infrastructure and server-side development. Contributed to both frontend and backend tasks, improving full-stack development capabilities. Implemented CI/CD pipelines to streamline development and deployment processes. Collaborated with team members to deliver efficient, scalable solutions.
